

**SECTION 02842
PUBLIC NOTIFICATION / TRAFFIC CONTROL**

PART 1 - GENERAL REQUIREMENTS

1.01 DESCRIPTION

- A. It is the Contractor's responsibility to provide for the safety of traffic and the public during construction.
- B. It is the Contractor's responsibility to provide for the Public Notification of the proposed work on a continual basis with the use of door hangers, door to door communication or a combination of both that transmits Contractor's schedule for the work, and to provide notifications necessary to educate the public that is directly affected by this work to reduce complaints on disruption to daily schedules.
- C. 24 hours' notice is required for public notification where limited or no access to driveways will be required to complete construction activities and prevent tracking of fresh work on to private property.

1.02 TRAFFIC AND ACCESS

- A. The Contractor's operations shall cause no unnecessary inconvenience. The access rights of the public shall be considered at all times. Unless otherwise authorized, traffic shall be permitted to pass through the Work, or by an approved road detour.
- B. Vehicular access to ramps and driveways shall be maintained and remain open unless otherwise directed by the Engineer or approved by Contractors traffic control plan and public outreach.
- C. The Contractor shall cooperate with the various parties involved in the delivery of mail and the collection and removal of trash and garbage and general maintenance by others to maintain existing schedules for these services and plan accordingly and include plans to mitigate. Other deliveries, traffic and movement of equipment shall be maintained and permitted to pass through the work area unless otherwise directed by the Engineer or approved through traffic control plan.
- D. Unless otherwise directed by the Engineer, all emergency traffic shall be permitted to pass through the work with no inconvenience or delay.

1.03 PUBLIC SAFETY

- A. It is the Contractor's responsibility to provide for the safety of traffic and the public during construction.
- B. The Contractor shall be responsible for the compliance with additional public safety requirements, which may arise. Include plan to notify County Sheriff, school transportation department, and local fire department of proposed work activity, and share schedule of work activities.

1.04 CONSTRUCTION AND TRAFFIC CONTROL DEVICES

- A. The contractor shall comply with all applicable Caltrans and County requirements for traffic control and construction signing.

- B. The Contractor shall furnish and install signs and warning devices throughout the length of the project and promptly removes them upon completion of the work.
- C. Whenever the Contractor's operations create a condition hazardous to traffic or to the public, the Contractor shall, at the Contractor's expense and without cost to the Owner, furnish, erect and maintain those barricades, lights, signs and other devices and take such other protective measures that are necessary to prevent accidents or damage or injury to the public.
- D. The Contractor shall also furnish such flaggers as are necessary to give adequate warning to traffic or to the public of any dangerous conditions to be encountered,

PART 2 - MEASUREMENT AND PAYMENT

- 2.01** The contract lump sum price paid for "Traffic Control / Public Notification" shall include full compensation for all costs incurred and for doing all work involved in the section.
